

Twist Gallery

Twist Gallery is Toronto's newest art gallery located in the heart of Queen West. Since it opened back in February, the space has grown into one of the city's most sought after locations for art exhibits, events, and shows. The 5,000 square foot New York-style loft features skylights, French Arch windows overlooking the city streets, and long wooden beams accentuating the high ceilings. The gallery ensures its artists can present their work in a relaxed and social environment, while allowing its visitors to walk around freely and learn about the art.

Twist transcends the stereotypical notion of an art gallery, and focuses on lifestyle as well. It is a place where anybody can walk in and feel comfortable; not only the art-enthusiasts, but even those who know nothing about art. The gallery works close with its guests, keeping them in-the-know regarding upcoming events and exhibits the space is hosting. It has also maintained a sense of sincerity and openness when it comes to working with the artists, collectors, and visitors.

Since its inauguration, Twist has worked in conjunction with **Mark Christopher Gallery**, **LUXaholic Fashion**, **Brose Canada Inc.**, **APEX Public Relations Inc.**, **NXNE Music and Film Festival**, **Nuit Blanche**, and **Humber College** as well with bands such as **The Trews** and **Crystal Castles**.
